SUMMARY

My name is Rio Ivano, born on January 2, 2001, in Jakarta, and currently residing in South Tangerang. I am an IT Developer with 2 years of professional experience in programming and software development, currently working at PT Bina Citra Teknologi. Throughout my career, I have gained expertise in various programming languages and contributed to developing efficient solutions for diverse projects. I am highly motivated by a strong curiosity and passion for technology, which drives me to continuously learn, grow, and explore new opportunities to enhance my skills and knowledge.

WORK EXPERIENCE

Software Engineer, PT Bina Citra Teknologi   **Mei 2024 - Present**

- Developed AnyHome, a launcher application for AnyBoard to replace Windows 10, using Flutter for front-end development.
- Created AnySuites, an educational application suite designed to enhance interactive learning experiences for educational school, using Unity for Game Engine & C# for development manager.
- Implemented Node.js as the backend technology to integrate analytics features for tracking and improving user engagement.
- Collaborated with cross-functional teams to optimize the functionality of AnyBoard, an interactive whiteboard product based on Windows.
- Contributed to the development of innovative solutions that support modern educational environments.

Programmer, PT Jenaka Rumah Kreatif   **Juni 2023 - Present**

- Built the company's website (https://jenaka.co.id) using WordPress to enhance their online presence.
- Maintained the PRPP Pertamina website (https://prpp.pertamina.com) by providing regular Google Analytics reports for traffic and performance insights.
- Implemented a Web Application Firewall (WAF) on a .NET-based server to enhance security and protect against cyber threats.
- Integrated Grafana for analytics and alerting, enabling real-time monitoring and data visualization of system performance.
- Managed the content management system (CMS) using Umbraco, ensuring seamless content updates and optimization for the website.

EDUCATION

Bachelor's Degree in Computer Engineering   **2018 - 2023**

Pamulang University
- Major: Information Technology
- Relevant Courses: Software Development, Database Management, Web Programming, System Analysis and Design
- Focused on building technical expertise in programming, system optimization, and software engineering.
