SUMMARY

I am an experienced developer with expertise in web development using programming languages such as Dart, HTML, CSS, and JavaScript, as well as backend technologies like Node.js and PHP. I am committed to performance, security, and user experience, with a focus on delivering projects on time and with high quality.

WORK EXPERIENCE

Software Developer, PT. Bina Citra Teknologi (AnyBoard)   Mei 2024 - Now

- **Design and develop** the **AnyHome** application using Flutter Windows and the **AnyKids** application using Unity 2D for AnyBoard's Windows 10-based digital whiteboard products.
- **Build and implement** features in these applications, ensuring that each app meets high standards for functionality and user experience.
- **Maintain and update** the applications regularly, keeping them relevant and optimized in line with technological advancements and user needs.

Programmer, PT. Jenaka Rumah Kreatif   Juni 2023 - Mei 2024

- **Design, build, and maintenance** client applications and websites using CMS WordPress, React with Next.js framework, and Postman API.
- **Manage** website performance using tools such as PageSpeed Insights, Grafana, and Google Analytics to ensure speed and efficiency.
- **Develop and integrate** front-end and back-end for client projects, using React and Next.js for the front-end and Express.js for the back-end, creating a responsive and reliable user experience.
- **Monitor and optimize** client applications and websites to ensure consistent performance and meet the highest standards in user experience.

Web Developer, PT. Melisa Yousuf Media (Internship)   Apr 2021 - Nov 2021

- **Maintenance** company profile & client websites.
- **Make** a copywriting, user interface, design web, dummy page, etc.
